## NETWORKING OPPORTUNITIES

### 1. Meeting Rooms

Venice Symposia offer a peerless opportunity to meet new colleagues and potential clients.

Please contact the Organising Secretariat at [info@venicesymposium.it](mailto:info@venicesymposium.it) to reserve one of the several break out rooms available within the conference centre and start organizing your own meeting with the assistance of our team.

Meetings can be conceived as parallel events open to all interested conference participants or as small working sessions reserved to a selected number of invited guests.

### 2. Networking Lunches and Breakfasts

Networking lunches and working breakfasts are among the novelties of this edition of the Venice Symposia we are most proud of, as they surely represent an incredible way to make new valuable contacts.

Exhibitors and participants can organise their own short breakfast session or lunch to discuss current projects or evaluate future cooperations in a relaxed and friendly atmosphere.

### 3. Companies Forums

Among a range of opportunities provided for companies, we will organise two “Companies Forums” to be included in the main conference programme. As the primary goal of these sessions is to create a link between the scientific content and the industry contributions, we are arranging oral sessions, workshops and forums focused on Research to Business (R2B), Business to Research (B2R) and Business to Business (B2B).

All detailed information on Companies sessions will be soon available on [www.venicesymposium.it](http://www.venicesymposium.it).
